

r.e. LPFM broadcaster. I am a financial supporter of Air1 Christian Radio. Air1 KJBR, Jonesboro, Arkansas is an asset to this region considering the filth offered to the listening audience by other stations. It is my understanding that LPFM is given priority over FM translator service. If this is the case, Air1 radio could be forced off the air in my area and other areas of the country. Would you PLEASE tell me what type of quality, commercial-free Christian programming would take Air1's place? I can answer that! NONE! As a Christian, I have had enough of being swept under the carpet or pushed aside. Please consider carefully your actions as they MAY have eternal consequences.
